

MEDIA RELEASE

STATEMENT ON SHARING NOTICES OF PRACTITIONERS' DEATHS

Part VIII of The Medical Practitioners and Dentists Act mandates the Medical Council of Malawi (MCM) to register medical, dental, and allied health practitioners. This registration not only permits practitioners to practice legally but also enables the MCM to maintain accurate records of the number of active practitioners on the register.

It has come to our attention that when a registered practitioner passes away, the MCM often remains uninformed. This oversight leads to inaccuracies in the practitioners' registers. Against this background, the Medical Council of Malawi urges the public and relevant institutions to promptly inform the Registrar and Chief Executive Officer about the death of any practitioner. This will ensure that we can take appropriate actions to update our Registers accordingly and provide accurate information that informs practice in Malawi.

All communication should be directed to the Registrar and Chief Executive Officer using the contact details provided below.

Dr. Davie Zolowere
Registrar and Chief Executive Officer
